BETTER PRODUCTIVITY

E-campus is designed to bring to you the best results in the least possible time. Our cutting edge solutions will increase your productivity by tenfold.

IMPROVED EFFICIENCY

Get faster, better and accurate results with the expense of a few clicks. E-campus offers next generation solutions that get your job done with best efficiency.

ECONOMICAL

Digitalised campus solutions will save your money and energy in the long run. By improving the work productivity and saving time, E-campus will definitely serve to be an economical alternative.

REDUCED TIME CONSUMPTION

Our solutions decrease your workload roughly by half. The digitised solutions will do your job twice as faster than before.

IMPROVED COMMUNICATION

Now the students and faculty can enjoy hassle-free communication. Departments can also connect and collaborate with each other in a faster and easier way.

QUICKER RESPONSES

All the data and solutions are available whenever you need them. The quicker responses will save your time spent on usual long waits for information.

SAFETY AND SECURITY

E-campus ensures that your data is protected and safe from external agencies. All the information related to institution is fully secured and can only be accessed by authorised personnel.

FASTER DECISION MAKING

Digitalised solutions will give you all the necessary data in a blink of time. Availability of accurate stats and data will allow the management to reach important decisions easily.

EASE OF ACCESSIBILITY

Now enjoy easy access to all your campus data with 100% accuracy. With E-campus, you can access any kind of student or organisation information and records within a few clicks.

ENHANCED PARENTAL INTERFACE

Parents get to enjoy an easier and faster involvement related to their children's academics and other campus activities. More and enhanced parental involvement will benefit the institution in many ways.

CUSTOMISED MOBILE APPLICATIONS

The mobile application of E-campus is fully customised according to the organisational needs. Experience better personalised interfaces that are specifically created according to your requirements.

CENTRALISED DATA MANAGEMENT

Do not worry about a scattered system anymore. All the campus data are unified into one single platform. This makes them centralised and easy to manage..

# WALK THROUGH OUR
FUNCTIONALITIES

MOBILE
APPLICATION

Optimise the campus experience with our secure and user friendly mobile app. E-campus provides mobile application developed for iOS and Android that can equip students and faculty with all necessary tools designed for a smooth campus experience. The creative design, simplicity and easy user interface makes the application a powerful medium for bringing your campus closer to you. The app delivers high quality smart technologies that will help you create and enrich a productive campus.

ADVANCED
WEBSITE

The highly advanced web application is custom designed according to your specific requirements. The website enables multiple logins which provides a common access platform for different members of the institution, namely admin, staff, teachers, parents and student. This helps the members to know day-to-day activities of each others. The website offers quick and easy functionalities for a smarter utilization of campus resources. The website also introduces new functionalities for increasing student and parental interface.

QUICK SET-UP

E-campus comes with a quick dynamic set-up option. You can add class, section, academic year, subjects, portions, topics, academic calendar etc. and set-up your campus. If you want to make changes, it is all there and all you have to do is a few clicks! This is a complete management solution provider through which you make changes in business model and management strategies.

SMART STUDENT MONITORING

We offer simple, real-time student monitoring features. The teachers and staff can keep track of student activities and avoid possible issues regarding student's academic, daily activities and safety. Earlier student monitoring used to be a time-consuming job but our automated system will be a game changer in keeping regular tab of students and sending timely alerts to the concerned persons.
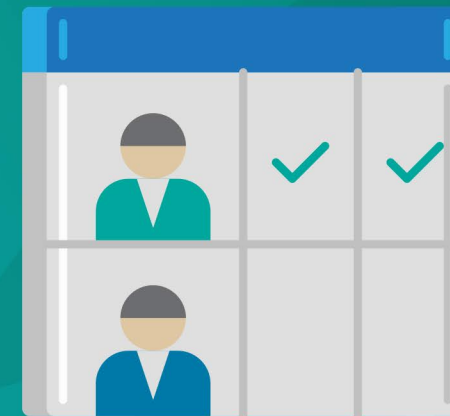

ACCOUNTS MANAGEMENT

Manual accounting process takes a lot of time and leads to a large number of errors. E-campus guarantees an effortless and efficient account management system that also saves tons of your time. Our automated accounts management software makes it convenient for office staff to manage and access files and accounts. It also enables faculty to view/access income and expenditure, review flow of revenue and check balance sheets. It also helps in automatic creation of reports and generation of receipts / invoices.

DAILY ATTENDANCE MANAGEMENT

E-campus offers customized daily attendance management system with period wise data. It enables the teachers and staff to handle the attendance sheets and records of students in more efficient manner. The staff, teachers, students and parents can get benefit from this module. Automated notifications can also be sent to the absentee's parent.

PERIODICAL UPDATES

We introduce provision for regular and periodic updates. It can add new and improved features and take out the out-dated ones. It also ensures added security and protection of data. We are continuously on the search for making our features the latest and best in the market. We pay attention to feedbacks and improve ourselves with the latest cutting-edge technological solutions.

NOTIFICATION CENTRE

We manage notifications at its best. Parents can get notification if his/her son/daughter is absent. Parent and student can get notification about exam schedules, home works, fee reminders etc. This also comes up with a 'to-do' list support and self-reminder for all users. The notifications can be in the form of SMS, E-mail or Dynamic Push.

The automated bus management system takes care of issues related to student and staffs commute. The software covers all aspects of bus management like scheduling bus routes, assigning students to buses, vehicle maintenance, fuel costing, repairs etc.

Teacher or staff leave information are automated and easily kept tab on, thank to the leave management system. Attendance of staff is recorded as well as total leave period allocation calculated. The remaining leave days of staff is also calculated easily.

Running of online tests include collecting question papers and quizzes on various subjects. Tests are conducted in specified online platforms and monitored by teachers. Evaluation and marking system is fully automated for the convenience of teachers and accurate calculation of scores.

Course and syllabus design management involve accumulation of materials, books and other resources. The administration can design the academics, syllabus and lessons faster. This will also help the student for his/her preparations. We make this module accessible for the parents also.

The hostel and canteen management system help with easy functioning of hostel activities like managing rooms, room types, food, living facilities and assigning rooms to students. The automated system also allows students to find and get admitted in hostels without any hassle or delay. The concerned faculty can keep track of and organise hostel, canteen and mess running more effortlessly.

The complaint management and redressal system works quickly and effectively. Complaints can be registered quickly and the head of administration can easily make timely actions regarding the issues.
